

Missions are acquired from:

- Lt. Kaelin & Lt. Cissel (Military Contacts)
- Ex-Priest Gast (General / Black Market)
- Scav.Net Online Resource (SNOR - CooldownTimer)
- Phoenix Hill Bartender, Casey Wenz
- [MAIN SCENARIO] Periodical Terminus / TOBI Missions

Mission Category & Descriptions:

Jobs from each individual have different flavors. A low standing can influence whose available for a team to receive jobs / leads. If a team has a low standing, Ex-Priest Gast and Casey Wenz can still be used. Leads used with Scav.Net are a bit sketchy but might have some wilder than normal outcomes that wouldn't see in tone. Pay wildly varies.

With a High Standing, all are available to be used but Lt. Cissel might deal out a priority mission and so can Ex-Priest Gast. These can have a conflicting interest with each other, and then the main mission. Create mission templates.

Lt. Kaelin (Meeting Location: Louisville PD Attache | Meeting Time: Afternoon)

Lt. Kaelin is the go-to person for jobs if you wish to help the local militia. His jobs are simple delivery missions (non-critical but important),

Lt. Cissel (Meeting Location: Westpoint & Underground Caverns | Meeting Time: Morning & Twilight)

His jobs are a bit more important and require good standing with the city. These can be sneaking to an area to drop a sat-transmitter, stealing some documents and going after some individuals or roughing up denizens.

Ex-Priest Gast (Meeting Location: Waterfront, Phoenix Hill Tavern, Belle of Louisville, Shippingport Island | Meeting Time: Afternoon)

Peter Gast used to be a catholic priest until the wave hit, and things changed, before then he used to be a cop. Now he serves as a good back-dealing contact and a go to person for the shadier jobs. Gast's resources are vast and if standing is low— he can still supply. Gast delivers.

Scav.Net Online Resource (SNOR)

SNOR jobs are first come, first serve. These are usually leads that someone can follow that might lead them to a quick find in goods, or an easy ambush by bandits. Prolonged usage of the service means that better jobs will come, and payment means preferred referral for specific leads. scavnetdb.io is a resource for hotmaps around the world. SNOR is a parent site.

Casey Wenz (Meeting Location: Phoenix Hill Tavern | Meeting Time: Afternoon & Night)
Bartender Wenz can give decent jobs and leads, they usually end up fruitful or leads to a meeting with another of the above contacts.

[MAIN SCENARIO] Periodical Terminus / TOBI Missions

The base mission point is delivered by the SCENARIO cards and all the above can influence the PRIMER cards. However, a Terminus Handler can contact the Terminus Team and a TOBI spook can give them critical evidence. Their missions can both have differing, or largely the same goals.

ANCHOR SPOTS

Anchor spots are locations where wights dwell, and come from. A lot of these locations all have a common origin point but those weren't the first spots to pop up. The many spots that did were places where many people died or suffered but it wasn't quite reported. Or, it was covered up. Past places where these happened only really "erupted" with an anchor spot. [SEPERATE SITE THAN SNOR?]

Notable Anchor Spots Outside Louisville (But in the USA [VERIFIED SPOTS])

Verified as in, it must be a place where an extreme tragedy or significant battle has occurred at some point. This means that more than a dozen people would have had to be killed or went missing. And it must be a true location, in real life.

Alamo, TX

Little Bighorn River, ... , Montana (DESTROYED CUSTER, FUCK THAT GUY)

Tusla, Oklahoma MASSACRE OF INNOCENTS

Battle of Hampton Roads (Rare: Water Zone) CIVIL WAR ERA

Battle of Gettysburg (1863) CIVIL WAR ERA

Battle of New York (1776) American Revolution ERA

Battle of New Jersey (1777) American Revolution ERA
